

Doll Therapy

-An Effective Resource for Dementia Patients

Lutheran Care Center, a 5-Star skilled nursing and rehabilitation center in Poughkeepsie, is in need of Therapy Dolls used by residents in Memory Care.

Donate a New/Gently Used Plush Baby Doll (17"-22")

At the Atlantic District Festival of Workshops on March 7th

(Or, make a donation and we will gladly purchase the doll-check/credit card accepted)

Doll clothing & accessories also appreciated.
(Please... no China dolls or American Girl type dolls.)

Provide comfort to someone with Dementia. These dolls are more than just toys. They are a source of comfort and security when a loved one needs it most. Having a small, familiar face to cradle and care for creates an engaging environment, encourages Alzheimer's patients to interact, and promotes healthy emotional responses. These therapies provide an outlet for someone to step out of their world of being totally dependent on others and to feel like they have something that depends on them.

Sponsored by: Village Lutheran Church LWML Society, Ladies in Christ. Questions: jgeorge@tlcn.org

The Lutheran Care Network is a Ministry of Healing, Hospitality and Community through Partnerships in Caring.
